

GENDER, GERONTOLOGY AND GEOGRAPHY BUILDING RESEARCH CAPACITY TO IMPROVE HEALTH

FRIDAY, JUNE 12, 2008

8:30am - 4:00pm
Manteo Resort Hotel
3762 Lakeshore Road, Kelowna

Join us in a Free Workshop to discuss Untangling Sex and Gender and Transitions through the Healthcare System

objectives

- to* increase knowledge around sex and gender and other determinants of health in relation to aging and geography
- to* strengthen and expand the local network of people interested in community based research
- to* provide a forum that brings together university and community researchers
- to* identify opportunities for collaborative research focused on “transitions”
- to* increase awareness of existing support including funding and meeting infrastructure
- to* provide funding opportunities for community based research teams emerging from the workshop
- to* enhance rural health research capacity (skill, expertise, teamwork, team skills, overall ability to do and use research) in gender and aging

who should attend?

health researchers, academics, clinicians, educators, community organizations and students
